[This email originated outside of F&R.]

Ashley,

We oppose Samsung's proposed amendment as futile because it has no basis in fact or law.

Please let us know if you wish to discuss, otherwise we can deem the meet and confer completed.

Thanks,

Counsel,

We need to meet and confer on this issue so that Samsung may seek appropriate relief. I will open the following link **tomorrow, March 4, at 12:30pm ET and again at 3pm ET: <https://fish.zoom.com/j/4048797229>**. If there is another time that works better, we are happy to consider it. If Headwater does not join and does not otherwise respond, we will note in the motion that Headwater failed to engage in the meet and confer process.

Regards,
Ashley

Counsel,

Samsung intends to file an amended answer raising an additional defense of improper inventorship. Samsung's basis for this amendment is new deposition testimony from Messrs. Lavine, Nguyen, Raissina, and Green regarding the inventorship of one or more of the asserted patents which revealed information previously unknown to Samsung prior to these depositions. As a courtesy, Samsung's contemplated Second Amended Answer is attached for your consideration. Please let us know by Wednesday, February 26th whether you oppose Samsung's amendment.

Regards,
Nick
